A 1715 DIN Rail MP3/SD Message Player

Overview

The A 1715 is an MP3 based message player, housed in a convenient DIN rail housing. It has four independent contacts for remote triggering of the four available MP3 audio files. These files can be a recorded message, a music track or any audio whatsoever as long as the file is in MP3 format. The MP3 files are stored on the supplied Micro SD card. Audio is output via dual stereo line level RCA's and the unit is powered by 24V DC via the supplied plugpack.

Customisable Tracks

It allows up to 4 custom MP3 tracks including standard alert and evacuation tones. A library of commonly used tones, messages and phrases are provided on a Secure Digital (SD) memory card.
A custom message may be played providing evacuation instructions to occupants. Custom MP3 tones, music etc may be added as desired.

Compatible With All Standard MP3 Files

Length/size:	Limited by card size
	(800mins @ 128kbps, 44kHz on supplied 8GB)
Bit rate:	All standard MP3 rates (128kbps recommended)
Sample rate:	All standard MP3 rates (44.1kHz recommended)
Channels:	Stereo or mono

Pre-Loaded Alert Evac Tones

The SD card is preloaded with standard tones, including bell, bing bong, siren and pre-announcement chime, plus Australian Standard alert and evacuation tones (complying to AS1670.4).

Simple Remote Control

Playback for each track can be activated by a closing set of contacts. Contacts may be configured between alternate or momentary action. This can include or exclude alert & evacuation tones as desired. Cancel contacts are provided to stop playback of tracks.
