

Class-D Amplifier Operating Manual Addendum

Models: A 4308 / A 4310 / A 4312 / A 4314

RJ45 Remote Monitoring Port Wiring - Per Amplifier Channel

Pin No.	Function
1.	N/C
2.	N/C
3.	N/C
4.	- (neg) Common
5.	+ (pos) Protect LED
6.	+ (pos) Power LED
7.	- (neg) 24V
8.	+ (pos)

LED Wiring:

LEDs are wired directly with no resistor (5mA forward current).

Remote Power Wiring:

Any remote switch will turn ON/OFF all amplifier channels within the same chassis. Not individual channels.
